HOW TO USE A CLEVIS PIN

COMMENT UTILISER UNE GOUPILLE À CLAVETTE
ANBRINGEN EINES GABELKOPFBOLZENS

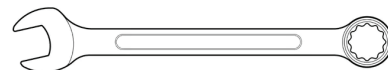

Congratulations on joining the growing number of people choosing a plastic coop. Plastic has so many advantages over wood for housing chickens!

The main ones being that they require no maintenance and are exceptionally easy to clean.

NO MAINTENANCE</

TOOLS REQUIRED OUTILS REQUIS BENÖTIGTE WERKZEUGE

F1 Lynch Pin x 8

Secure the roof using lynch pins.
Fixez le toit à l'aide de goupilles lynch.
Befestigen Sie das Dach mit Klappsplinten.

EN Recycled and Recyclable

We use recycled materials whenever possible. Our plastic products are made from recycled industrial waste, and we recycle all our plastic waste. Choosing our products over those made from virgin plastic helps reduce new plastic production.

Our recycled plastic is durable, easy to work with, and requires no preservative treatment. It resists UV light, atmospheric pollutants, and extreme weather, maintaining its appearance and functionality longer than timber.

The plastic sheets have a consistent thickness, ideal for our precise manufacturing process. We use rust-resistant metal components that are also recyclable.
